## About Us

Transportation Compliance Associates Inc. is a woman and veteran owned company that was initially founded on the concept of providing a fully customizable suite of training and consultation services tailored to the chemical, petrochemical, refining and energy industries, with specific emphasis on bulk rail and truck operational compliance.

As the needs of our clients diversified, we began to move into the manufacturing and biomedical markets. By expanding the services we offered over the years in support of our clients, we have been able to build a substantial portfolio of services. Whether its by rail, truck, vessel, barge or air, we are here to address your compliance needs by providing tools and information to help your business run better.
