September 2013

Letter from the President

Dear Friends -

All of our readers are well aware of the looming OSHA training requirements for Global Harmonized System training. The Global Harmonized System

We have developed products for our client companies to meet this challenge with on-site training, customized webinars, and producing training products

Your Partner in Compliance Safety,

Karen Alston

President

Transportation Compliance Associates, Inc.

The Holidays and GHS, Not the Best Mix

By Jack Alston

The Global Harmonization System training mandate is quickly approaching, with the deadline of December 1, 2013. The training as mandated by OSHA

At Transportation Compliance, we recognize these challenges facing our client companies that want to comply with the GHS training mandate, with the

We are recommending to our clients to act now, before the December first training deadline and the complications of adding the holidays into the

This type of training can be done onsite, via webinar or online. Spanish Speaking instructors are available, too. [Visit us](#) or call us today at 800-850-8500

Obama Signs Order for Increased Safety and Oversight at Chemical Plants

By [Terrence Henry](#)

A few months after a deadly explosion at a fertilizer plant in the town of West, Texas, President Barack Obama [signed an executive order](#) today that

The explosion in April at the West Fertilizer plant took 15 lives and destroyed hundreds of homes and schools. While the origin of the fire that led

Many of those killed in the explosion were first responders, who had rushed towards the plant to fight the fire after it ignited. Today's executive order

The order also calls for government agencies to find chemical facilities that haven't provided all the information they're required to or are not following
